Fields of special competence

Mr Wilson is focussed on guiding clients toward supply chain solutions that generate significant value and return on investment. Mr Wilson has substantial experience in advising Fortune 500 companies such as Insight Enterprises, 2 large hi-tech companies, Warner Brothers, Northrop Grumman and Compaq. His thought leadership experience, gained globally, enables his ability to assess business needs and link them to opportunities for substantial cost savings through the use of the appropriate technology. He has a unique set of skills that run from a deep technical programming and configuration foundation up to the overall business analytics and executive oversight component.

Relevant experience

Mr Wilson's experience can be categorized as follows:

Solution Design and Engineering

- Most projects were either at a team lead level or as the associated solution architect for the applicable component.

SAP Event Management

- Thought leader, evangelist, project management, analyst, configurator, developer, mentor, educator (+9 projects including Coca Cola Amatil, Asics, Canadian Pacific, Insight Enterprises, HD Supply, Roche)

SAP Object Event Repository

- Thought leader, analyst, configure, developer quality assurance (Implemented both the RTI and PTA scenarios of OER at a large semiconductor company, Perrigo-QA review)

SAP Workflow

- Thought leader, project management, analyst, configure, developer, mentor, educator (many projects including Insight Enterprises, Eclipse Aviation, HD Supply, Amkor Technologies)

SAP EDI

- Thought leader, evangelist, project management, analyst, configure, developer, mentor, educator (many projects including Insight Enterprises, Maisto International, EFI, HD Supply, Asics, Wella Corp., Northrop Grumman, iLogistix, Goodhome.com)

SAP ALE

- Thought leader, evangelist, project management, analyst, configure, developer, educator (Many projects including Insight Enterprises, Eskom, Compaq, Taiyo Yuden)

SAP NetWeaver PI

- Thought leader, analyst, configure, developer, mentor, educator (+3 projects including Insight Enterprises, Amkor, HD Supply)

SAP Transportation Management

- Thought leader, integration solution architect (Canadian Pacific)
